

# UK Crematoria Survey 2015

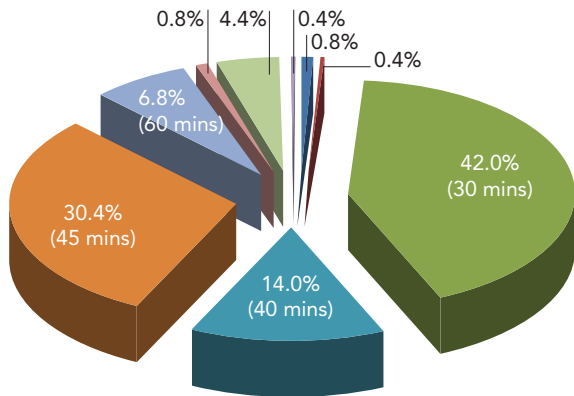

Once again the Society has surveyed all the crematoria in the UK to obtain the latest information about fees, and to learn more about existing practices and facilities.

The latest situation is compared with the situation as it was in 2007 and for comparative purposes, where a subject was not covered in 2007 the earliest date for which information is available is shown.

The Society is extremely grateful for the information provided by crematoria and hopes it will be of interest in providing a picture of a continuing evolving cremation movement.

## Crematoria Booking Slots
